

Bornean Orang-utan (*Pongo pygmaeus*)

Tables 1a, b and c: population size estimates for *P. p. wurmbii*, *P. p. pygmaeus*, and *P. p. morio*.

Table 1a. *P. p. wurmbii*. Over 32,000 individuals in Indonesia (estimated in 2003). Major populations include.

| Name | Protection | Forest type | Size (km ²) | Population size |
|-------------------|------------|--|-------------------------|-----------------|
| Sebangau NP* | Yes | Peat swamp | 5,780 | 7,000 |
| Tanjung Puting NP | Yes | Peat swamp, mangrove, mixed lowland dipterocarp forest | 4,150 | 5,300 |
| Gunung Palung NP | Yes | Peat swamp, semi-inundated, lowland and montane forest | 900 | 2500 |
| Belantikan | No | Mixed dipterocarp forest | 5,100 | 6,000 |
| Mawas* | No | Mixed dipterocarp forest | 3,500 | 5,000 |
| Katingan-Sampit | No | Peat swamp, semi-inundated, lowland and montane forest | 3,000 | 2,800 |

*Due to recent extensive fires, we know that the size of these populations have plunged although no recent density estimates are available.

Table 1b *P. p. pygmaeus*. About 1,300 individuals in Sarawak (Malaysia); about 3,500 in West Kalimantan (Indonesia).

| Name | Country | Protection | Forest type | Size (km ²) | Population size |
|--|---------|------------|--|-------------------------|-----------------|
| Batang Ai/Lanjak Entimau Betung Kerihun NP | M I | Yes | Lowland to submontane dipterocarp forest | 6,500 | 3,000 |
| Ulu Sebuyau | M | Proposed | Swamp to mixed dipterocarp forest | 272 | 40 |
| Danau Sentarum NP | I | Yes | Semi-inundated and swamp forest | 1,000 | 500-1,000 |
| Upper Embaloh | I | No | Lowland dipterocarp forest | ? | 500-1,000 (?) |
| Lower Kapuas | I | No | Mixed lowland forest | ? | 500-1,000 (?) |

Table 1c *P. p. morio*. 11,000 (95% CI: 8,000-18,000) orang-utans in Sabah (Malaysia); about 3,000 in East Kalimantan (Indonesia).

| Name | Country | Protection | Forest type | Size (km ²) | Population size |
|---------------------------------------|---------|------------|---|-------------------------|-----------------|
| Upper Segama | M | No | Lowland to submontane dipterocarp forest | 3,600 | 4,500 |
| Upper Kinabatangan | M | No | Lowland to submontane dipterocarp forest | 1,700 | 1,700 |
| Tabin Wildlife Reserve | M | Yes | Lowland and ultrabasic forest | 1,100 | 1,400 |
| Lower Kinabatangan Wildlife Sanctuary | M | Yes | Mangroves and mixed semi-inundated lowland forest | 410 | 1,100 |
| Kulamba Wildlife Reserve | M | Yes | Mangroves and swamp forests | 170 | 500 |
| Kutai NP | I | Yes | Mixed lowland dipterocarp forest | 2,000 | 600 |
| Gunung Gajah | I | No | Lowland to submontane dipterocarp forest | 1,400 | 1,500 |
