

*Grey Seal (*Halichoerus grypus*)*

Table 1. Relative sizes of Grey Seal populations. Pup production estimates are used because of the uncertainty in overall population estimates.

Region	Pup Production	Year when latest information was obtained	Possible population trend
Scotland	40,600	2006	Stable or slowly increasing
NE England	2,700	2006	Increasing
SW Britain	1,800	2006	Increasing
UK	45,100		Increasing
Ireland	300	1998	Unknown*
Wadden Sea	200	2004	Increasing**
Norway	1,200	2003	Unknown**
Russia	800	1994	Unknown**
Iceland	1,200	2002	Declining**
Baltic	***4,000	2003	Increasing
Europe (excluding UK)	7,700		Increasing
Canada (Sable Island)	41,500	2004	Increasing***
Canada (Gulf of St Lawrence)	6,100	2000	Declining**
USA	1,100	2002	Increasing****
West Atlantic	48,700		Increasing
TOTAL	101,500		INCREASING
