

## Bornean Orangutan (*Pongo pygmaeus*)

**Table 1.** Percentage decrease in Bornean Orangutan population size owing to different factors. Density was assumed to be even across habitats.

	Habitat clearance	Habitat degradation due to logging 1973–2010	Additional losses in protected/production areas 2010–2023	Net hunting minus growth	Total population decrease
Past 1973–2010	39%	7%	n/a	18%	64%
Future 2010–2025	37%	n/a	20.2%	7%	58%
Overall 1950–2025	61.5%	4%	8.7%	12%	86.2%
